THE ENGLAND PICTURE

Long Term Plan and ICSs

1 = South Yorkshire and Bassetlaw

12 = West Yorkshire and Harrogate

- Integrated care systems (ICSs) will replace STPs by April 2021
- Funding flows and performance frameworks will be reformed to support
- STPs about planning/ ICSs encompass funding.
- Interim workforce plan published on Monday. A five year workforce plan to be published with the LTP implementation plan.
- Interim plan - role for ICS taking on responsibilities for workforce activities.
- LTP is for the NHS, not public health and social care spending. Spending review will cover workforce training, social care and local authority public health spending.
- One CCG per ICS.
- Recent consultation about new legislation to support ICSs.

What next – from RCSLT

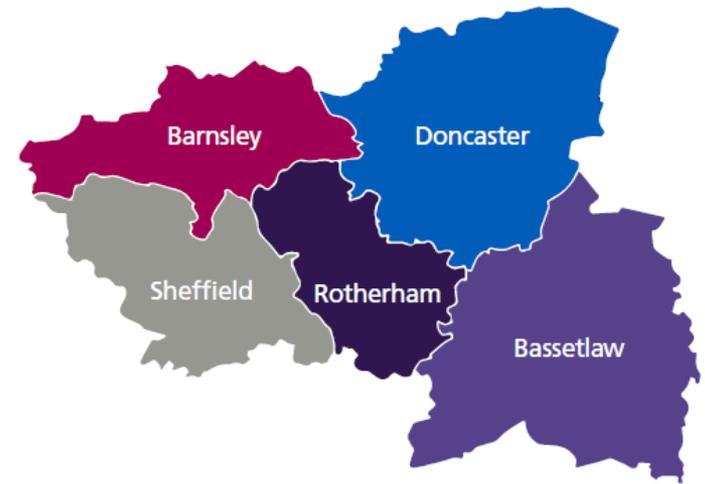

Raise the profile among members eg

- Long term plan briefing – on the website
- Engaged on the groups developing the implementation plans
- Revise the RCSLT STP factsheet
- Develop contacts with STPs/ICSs – can you help us find contacts?
- A network of SLTs – one in each STP – or at least one in each Hub?

INFLUENCING ACROSS THE REGION

South Yorkshire and Bassetlaw ICS

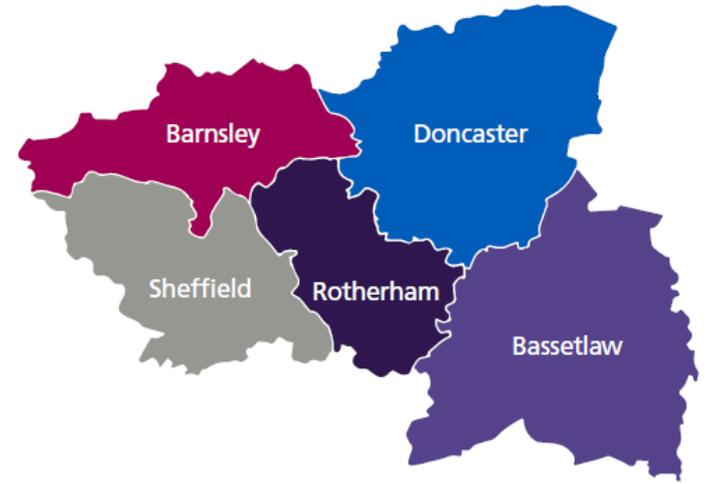

South Yorkshire and Bassetlaw is one of eight first-wave Integrated Care Systems in England.

ICSs have evolved and continue to drive forward the transformation agenda but now have a role in supporting organisations to increase integration for example through sharing risk together and taking more responsibility for joint oversight and assurance through mutual accountability and devolved functions from NHSE and I.

Our ambition

Our ambition is simple:

We want everyone in South Yorkshire and Bassetlaw to have a great start in life, supporting them to stay healthy and live longer.

Health and care in South
Yorkshire and Bassetlaw

**Sustainability and
Transformation Plan**

ICS context

■ **£3.9 billion total health and social care budget**

■ **1.5 million population**

■ **72,000 staff across health and social care**

■ **37,000 non-medical staff**

■ **3,200 medical staff**

■ **835 GPs / 208 practices**

■ **7 acute hospital and community trusts**

■ **5 local authorities**

■ **5 clinical commissioning groups**

■ **4 care/mental health trusts**

System overarching objectives

SYB System objectives - from the published plan

1

To **reduce inequalities** for all helping people **live well** and **stay well for longer**

2

To **join up health** and care services so they are responsive to peoples needs and accountable

3

To **invest in and grow primary and community care**, with general practice at the center

4

To treat and **care for the whole person**, looking after their **mental** and **physical health** and needs

5

To **standardise acute and specialised care** - improving access for everyone, reducing inequalities and improving efficiencies

6

To **simplify urgent and emergency care**, making it easier for people to access the right services closer to home

7

To **develop the right workforce**, in the right place with the right skills – for now and in the future

8

To use the **best technology**, keeping people **well at home**, supporting them to **manage their own care**, connecting our people so they can provide joined up care

9

To deliver a **financially sustainable** health and care system

10

To **engage with our communities**, people, patients and staff to do this.

The role of AHPs

AHPs have a unique opportunity to help us achieve our goals, especially at a neighbourhood level. I am heartened by the work already in place by the AHP Council – particularly around some of the workforce challenges as I believe this is where AHPs can bring real benefits. Our AHP Council members have been nominated by each of our chief executives and I am grateful to all members for their time and commitment.

Sir Andrew Cash, chief executive,
South Yorkshire and Bassetlaw Integrated Care System

AHPs in SY&B ICS

- Workforce development a key enabling work strand for IC
- Workforce a key theme in emerging Hospital Services Review recommendations
- AHPs crucial to workforce development
- SYB AHP community driving the agenda – second AHP event, Draft AHP Strategy, development of AHP Council

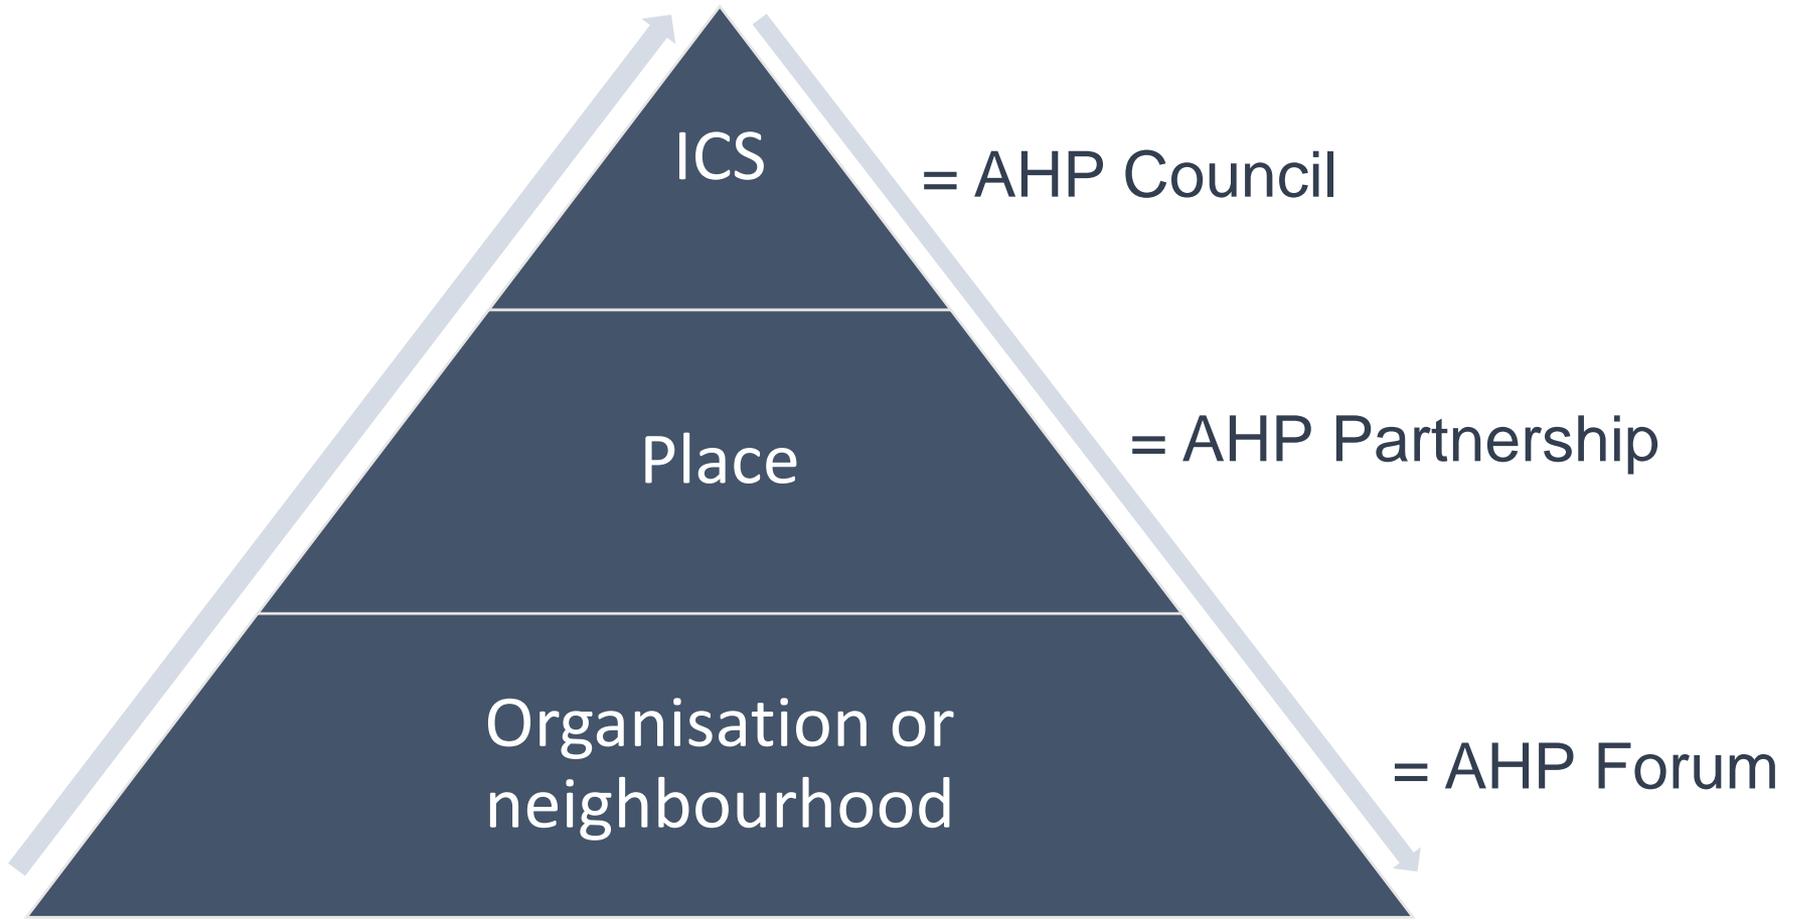

AHP Council

A central point for engaging the expertise of a wide group of professions ensuring their value is maximised in transformation of the workforce and pathways at local neighbourhood, place and ICS level

- An AHP Council established by September 2018- an advisory group to drive the AHP strategy for the SYB ICS
- Membership through nominations from each partner Trust
- Endorsed and supported by the NHS England Chief Allied Health Professions Officer and associated NHSI AHP Leads
- The council will nominate appropriate professionals to lead/be involved in key work streams locally, regionally and nationally
- The AHP Council exists to:
 - Providing a hub of AHP expertise and advice
 - Developing an AHP workforce development programme and plan
 - Raise the profile of the AHP workforce to maximise their contribution to transformed health and care service

Linking AHPs across the system

AN SLT VIEWPOINT

SY&B SLT Professional Reference Group

2 meetings Oct 18 and Feb 19. Next June 19
Representation from organisations where SLT provide service

Activity so far

Agreed Terms of Reference- Chair/ Dep Chair, Quarterly meetings
Mapped band 8s across the patch
ACP and Consultant roles
Model Hospital- Job plans, activity categories, ESR
Apprenticeships

Future Agenda

Partly led by AHP Council agenda
Partly influenced by national agendas
