

THE RCSLT STRATEGIC VISION 2022 - 2027

OUR MISSION

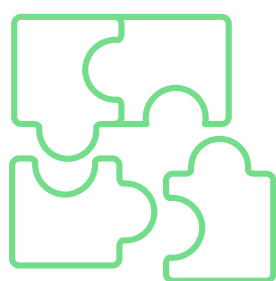

To enable better lives for people with communication and swallowing needs

OUR VISION

A society that is inclusive of all with communication and swallowing needs

OUR ASPIRATIONS

- Inclusive communication for all
- A more diverse, inclusive and representative profession, with equitable access to culturally appropriate provision for service users
- Explicit recognition of health inequalities, social disadvantage and the profession's role in working to counter these
- Championing the value and impact of speech and language therapy
- Co-production with service users, their carers and families
- Better funding and resources for the profession, with a focus on staff health and wellbeing
- Innovation and excellence in research and clinical practice, and a stronger evidence base, including for telehealth and digital inclusion
- Properly funded senior and specialist roles, clear career pathways, and strong multidisciplinary team working
- Being an outstanding organisation that empowers its members to lead
