

Representing you at the RCSLT

We're changing the way we recruit to our board and committees – here's how you can get involved in the process.

A more diverse RCSLT

Having a range of perspectives influence our work is critical to ensuring we can champion and represent the profession. We're looking for members from all backgrounds to be involved at every stage of this journey.

Nominations Committee

The Nominations Committee was established in November 2021 and oversees the whole process. Their job is to make applying for board or committee roles as welcoming, supportive and accessible as possible.

Selection Panel

The Selection Panel is a group of members who will help to interview prospective board and committee members. Apply now to be part of the selection panel at rcslt.org/selectionpanel.

Board and committee members

Once we've put together our Selection Panel, we'll advertise the available board and committees roles. This will be your chance to represent and shape the profession and the work of the RCSLT. We'll share details of these roles on our website.
