I am sorry I am unable to join you in person to celebrate this year’s RCSLT honours and Giving Voice Awards.

These awards are an opportunity to recognise the achievements of speech and language therapists and also celebrate those who have supported and championed speech, language, communication and swallowing needs.

I know that speech and language therapists work with children and adults who have difficulties with communication, or with eating, drinking and swallowing. Functions which are fundamental to life.

It is fantastic that you can come together today and celebrate all those who have gone that extra mile, either as a professional or someone who has had personal experience of speech and language therapy and wants to raise awareness.

Well done to all the worthy winners and I hope you have a wonderful day.
