

Speech & Language Therapy Hub

Featuring our...

Toolkit for Schools

Our **Toolkit for Schools** supports staff in all areas of Speech, Language and Communication. With individual hubs for different areas of communication, the toolkit delivers a fast and friendly way for busy school staff to access resources, videos, training modules and more - all with the most up to date information. Staff can also find information on referrals and helplines across all three BCUHB areas.

What schools say :

“It’s amazing! We’ve never had anything like this before!”

“The speech screen is brilliant – I am using it all the time with the little ones that come in... I can screen them and start helping them with sounds straight away”

“This toolkit is a game changer!”

“I have used the speech sounds screen on children and then was able to discuss with the SLT in school. I have also used the Neurodivergent and Autism Hub to explain and discuss strategies with a parent at a review meeting.”
