FIND SEATING THAT WORKS FOR YOUR CHILD
Find a chair or area for your child to sit. We recommend that this be the same learning area for each therapy session. Leave some room to move if needed.

HAVE TOYS AND ACTIVITIES READY TO SHARE
Help your child choose some toys or items to share with their therapist. Containers with lids work great!

SET-UP YOUR COMPUTER
Make sure your computer has a camera and request a test run with your therapist. Be ready to go 10 minutes before your session. Make yourself available for the session.

CLEAN OUT THE ROOM
Remove distractions, pets, anything that may interrupt the therapy session.

PROVIDE A VISUAL SCHEDULE
Have a visual schedule ready for the session. ChoiceWorks is a great app.
